Memory Book

We are asking for contributions of your memories and appreciations of Minja, how she touched your life, reflections on her joy in living and her tremendous loving heart. Contributions can be written, photographed, or otherwise recorded.

This book is for Minja and Tim's children Luka (5) and Anja (3) and will be saved for them until they are older.

It is one small way that they can know more about their mother, through your memories and appreciations.

Please sign your full name, date what you send and place your connection to Minja within context so that when they read your contribution, no further explanation will be required.

We thank you in advance for honoring and celebrating Minja by sharing your love for her with her children.
